### From the editors desk

Dear members,

We have our rally at the Show grounds this year on the October long weekend. We will be having a rally meeting at the show this weekend on Sunday 3pm and are asking for ALL members to attend. We need as much help as possible to run BBQ'S, gates, to be marshal's and various other jobs. None of which are hard or time consuming. We need just a couple hours of you time and hey you might actually be getting involved in the club. I only ask this once every two years. The Registers would love to see the car owners with their machines for display and inspection. Any help at all, even its an hour on a gate, would be very much appreciated. This rally is one of the clubs major events for the year so please if you have time, put ya hand up.

The pageant is in November and we have once again entered it. If any of the car people would like to enter please let me know so I can book it in. We will have the usual truck and tractors on display.

Our club Christmas how will be held on the 7th of December at the club shed. See next page for details.

Anyway hope to see you around the rally field.

Nick McCue

I was listening to the radio this morning when the host invited callers to reveal the nick-names they had for their wives.

The best call was from a brave chap who called his wife, "Harvey Norman"

The Host asked him why that name?

He replied: "Absolutely no interest for 36 months."

## Autofest Rockabilly Festival 2014

Jayne and myself had loaded up and parked a truck at the river ready for the next morning. We both arrived at a sparrow fart and proceed to unload our goodies. Once everything was lined up we took off to get the tractors. The John Deere was being a pain and had to be pull started as there was water in the cylinder. After about 700m the Johnny got real hot and concluded that the head gasket was indeed fluffed. By this time Jayme had left to get his field Marshall and was in commute. After a quick pitstop and tractor change over I was off with the Nuffield. Meeting Jayme at the old standard office and cruising down to the river. You get a lot of looks at 6mph. With the tractors down the river and set up, it was close to the public gates opening, so we shut our compounds and fired up some engines. In the shade of the gum trees we couldn't of had a better spot. All ran very well on Saturday with quite a few yarns and people looking. Jayme went through about 20 shells doing starting displays of the Field Marshall tractor, which amazed the crowds watching. Sunday saw another pearler of a day and still no car members. Most of the engines started with out to much trouble all but two. My cooper decided that it was time for a new sparkplug and Jayme's Lister cs decided it didn't want to run on water. So a new sparkplug solved the cooper lighting plant and now it was time to get grubby. We had quite a few professionals watching and helping with the Lister. After draining out about a litre of water and trying to remember how it all went back together, the Lister fired back into action. Sabotage I tell you! Sunday saw us pack up and drive our tractors cross the bridge and to a meeting. All in all a cracker of a weekend with nice cars, good food and great live music.
